Greek cooking, fishing, reading, enjoying Alaska's beauty, visiting as many other Alaska communities as possible!

**Statement:**

As a public servant for nearly 16 years, I understand what it takes to be your representative. I've served on the Anchorage School Board and on the Anchorage Municipal Assembly. **And it has been my honor to work for you in the Alaska State Legislature for the last two years.**

My priorities are:

- **Excellent schools:** Fully fund education at the State level.
- **Creating jobs for Alaskans:** We must strengthen our economy through responsible development and smart fiscal policy.
- **Safe neighborhoods:** Continue to support first responders to keep our neighborhoods safe.
- **Affordable energy:** Explore energy options and assure South Central Alaska has the power it needs.
- **Wise investments with accountability:** Projects funded with state dollars should be economically sound and benefit Alaskans. I've served on the audit committees of both the city and the school district and know how to look for waste. And I have voted NO on state projects that don't make sense and that my constituents find objectionable.
- **Road improvement and development impact decisions made with community input**

Over time I have seen a shift away from public accountability. We cannot make decisions without public input and support. We need to verify and guarantee that our investments and projects benefit the people of Alaska. As your representative I will work hard to make this a reality. I'm an independent thinker and **I base my decisions on the concerns of Alaskans.**

I'd be honored to serve you once again in the Alaska State House.
